GAS PRESSURE ALARM DEVICE

MODEL : SHT-901(I)

SHT-901 gas pressure alarm device serves to check the pressure of evaporated gases such as LNG, hydrogen, and a warning against abnormal pressure(High and low) according to preset pressure, and more.

SHT-901(I)

PRESSURE GAUGE(SWITCH)

SPECIFICATION RECEIVER

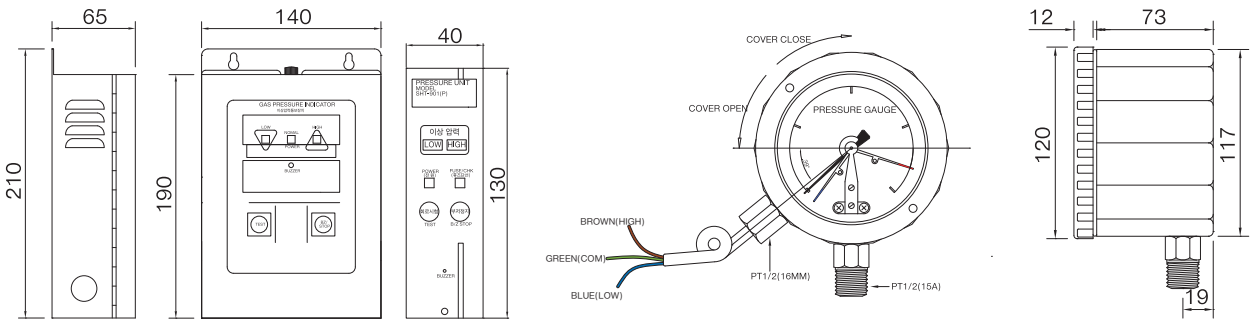
| **Model No.** | SHT-901(I), Wall-mounted type
| **Model No.** | SHT-901(P) (SHT-970 panel insertion type)
| **Type** | Gas pressure alarm device - Receiver
| **Operating Temp´/Humi´** | -40℃~+70℃/ Less than 95%
| **Operating Display** | Power light(Green),
Alarm light(LOW: Yellow / HIGH: Red)
| **Fuse volume** | AC 0.5A(500mA)
| **Weight** | 0.75Kgs

SHT-901(P)

SPECIFICATION GAUGE

| **Model No.** | SHT-901(G)
| **Range of application** | Checks gas pipe pressure in the explosion district
| **Conduit Connection Gas** | PT 1/2(15A)
| **Conduit Connection Cable** | PF 1/2(16MM)
| **Approval** | EX d II B T6

PRESSURE RANGE

- 0~500mm H_2O
- 0~1,000mm H_2O
- 0~5,000mm H_2O
- 0~1Kgf/㎠
- 0~2Kgf/㎠
- 0~5Kgf/㎠
- 0~10Kgf/㎠


DIMENSION (mm)
